**POSTGAME LOCKER ROOM QUOTES – Arizona State**

Elisha Davis, Arizona State Junior Guard:

**On what the key was to the win:** “Just sticking together because at times we had runs but other times they (Ohio) had bigger runs. It is just about sticking together; staying connected and moving onto the next play without letting anything bother us. We have been doing that since the first game of the season. We have that collective toughness and we know teams win games, not individuals.”

**On what they hope to improve for Monday:** “We will prepare for the game on Monday just like we prepared for the game today; take away their strengths, learn their tendencies and focus on us. We need to pound it inside and get them on their toes. We just need to talk to each other on offense and defense as well as being patient for things to open up.”

Peace Amukamara, Arizona State Senior Guard:

**On what the key was to the win:** “Just playing together and locking down on defense. They are a great three-point shooting team. We had to change plans because they keyed in on our post. When they keyed in on our post that was when Katie (Hempfen) started knocking down threes. Other than that I think we did well sticking to the plan on this game.”

**On what they hope to improve for Monday:** “I think we just need to play great defense and really rebound. We just need to do what we have been doing all year. We need to not foul. I am not sure but we just started fouling more today. We just need to keep our hands up and play great defense.”
